

Annual update of the demand for electricity and water services

Qatar General Electricity & Water Corporation “KAHRAMAA” Calls project owners and entrepreneurs (from both public and private sectors) with intensive bulk consumption of electricity (5 MW and above*) and water (25 cubic meters per hour and above*) to submit their future demands of electricity and water online Survey Form on the Kahramaa website. This is part of planning process to cover the Electricity and Water demands for the period 2020 to 2025 and it is mandatory for all existing and future bulk customers*.

All necessary documents for the project (in particular the concerned governmental authority’s permissions such as Municipality, Ministry of Energy and Industry, Ministry of Economy and Commerce, and others as the nature of the project) should be submitted with the online Survey Form. These documents must be submitted regardless of any previous correspondence or approvals which may have been granted by "KAHRAMAA".

It is also necessary to provide proof of ability to complete new projects or extensions of existing projects which are planned to be completed during the next three years, according to the projects’ execution periods mentioned in the Survey Form in order to be taken into account in plans for the development of KAHRAMAA networks and the production capacity of electricity and water. This includes presenting the evidences for acquisition of the necessary permits, and financial resources for the implementation of the project, and other requirements for completion of the project. It is to be noted that the project owner will be liable for the consequences of the project cancellation or delay or its exclusion from KAHRAMAA’s plans if he does not provide the necessary information and documents through completing the mentioned Survey Form and submitting on line with the required attachments on or **before 2020/08/30**
