

Tarsheed Conserving Building Competition 2018

Now in its 6th year of competition, Tarsheed Conserving Building Competition recognizes the buildings that incorporate, support and promote best practices in conservation of energy, water and other natural resources

Objectives

1. Create awareness about the building conservation concept in all sectors of society
2. Create public awareness on the benefits of building conservation practices (energy, water)
3. Mobilize People And Encourage Them To Embrace Energy Conservation Strategies
4. Motivate consumers to adopt building conservation practices in the local construction market

Technical Criteria

Buildings shall be evaluated based on specific criteria developed by a team of experts, as follows:

**HVAC SYSTEM • LIGHTING • PLUMBING FIXTURES • LANDSCAPE
• OPERATION AND MAINTENANCE PRACTICES • BUILDING ENERGY
MANAGEMENT, BUILDING AUTOMATION • SUSTAINABILITY MEASURES
• SPECIFIC ENERGY/WATER CONSUMPTION • BUILDING ENVELOPE**

Application

You can apply to the competition if your building falls under one of the following six sectors:

Government, Sub Categories:

Educational Buildings, Offices,
Masjids, any other Government
Building

Residential, Sub Categories:

Villas, Flats

Commercial, Sub Categories:

Shopping Malls, Commercial Offices

Industrial, Sub Categories:
